Opportunities in India

All of the top 10 fastest growing cities in the world are in India. Moreover, by 2030, India is on course to witness a fourfold growth in consumer spending. Fortunately, the United States is India's second largest source of imports, especially for car and aircraft engines, as well as residual petroleum products. India will also be looking to the U.S. for defense and maritime cooperation and investment to counter China's Indo-Pacific strategy. Healthcare will be a US$280 billion industry in India by 2020. Finally, open pit coal mining remains a dominant energy source, for which U.S. specialized equipment is in high demand.

The top opportunities for Virginia exporters in India include:

- Environment and Water
- Franchising
- Healthcare
- Mining and Mineral Processing Equipment
- Safety and Security
- Supply Chain/Logistics

"The people we were able to meet with as a result of this trade mission were high level decision makers that typically take us a long time to reach. The research and insights gained on this trip will help us keep our competitive advantage!"

- Trade Mission to the United Kingdom

“This trip turned out to be an excellent opportunity to build relationships with five qualified Mexican companies that can and will support my business going forward.”

- Trade Mission to Mexico

“The trade mission to Colombia was one of the best events we have attended. The meetings matched our search criteria, we were productive in our efforts to obtain new client contacts, and we gained new insight into our industry in Colombia.”

- Trade Mission to Colombia

“I have visited Saudi Arabia before, but the success I had in this trip was above and beyond our expectations. We have a few opportunities that may result in business. We are now developing proposals and evaluating partnerships.”

- Trade Mission to Saudi Arabia
