

TRADE MISSION

Taiwan

September 23–27, 2024 | Taipei, Taiwan

Registration Deadline | July 26, 2024

Taiwan was the 9th largest destination for Virginia exports in 2022, with exports valued at \$732 million. Taiwan's economy is largely based on high-tech manufacturing; the country is a world leader in the production of computer equipment, television components, semiconductors, and other electronic goods. Taiwan's economy remains incredibly robust as it outperformed nearly all other major economies in recent years, despite the impact of the COVID-19 pandemic. The U.S. is an important trading partner for Taiwan, accounting for 12.6% of the country's total trade and 10.2% of Taiwanese imports.

Top opportunities for Virginia exporters to Taiwan include:

- Aerospace and Defense Equipment
- Education and Training Services
- Energy
- Machinery and Machine Tools
- IT Technology
- Medical Devices
- Travel and Tourism
