

TRADE MISSION

Mexico

September 22–26, 2025 | Mexico City, Mexico

Registration Deadline | July 25, 2025

Mexico is ranked fourth among Virginia export destinations, with exports in 2023 equal to over \$1.2B. Mexico is the 13th largest economy in the world and has 13 free trade agreements covering 50 countries. Mexican companies, government agencies, and entire industries are deeply familiar with and receptive to U.S. products and services. U.S. producers often find it straightforward to market and sell in Mexico as the country continues to benefit from the USMCA trade agreement, its proximity to the U.S., and its modern port infrastructure. Close cultural, social, and economic ties make Mexico a natural market to consider for first-time and expanding exporters. The top opportunities for Virginia exporters in Mexico include:

- Advanced Manufacturing
- Aerospace
- Automotive
- Environmental Technologies
- Healthcare Products and Services
- IT Equipment and Services
- Mining and Minerals
- Safety and Security
- Transportation Infrastructure

“

This has already had an immediate impact on our company. Just visiting the country and meeting over a half dozen companies in three different markets increased our market awareness, our willingness to invest in the Mexico economy and building relationships to advance the growth of our products in a foreign market.
